**Elegance and
Protection**

“ CHOCOLATE PAD®

Increases the unboxing experience and adds prestige to the products.

Add value to the brand with product opening experience.

Chocolate Pad® provides reliable and efficient protection for valuable confectionery products such as chocolates, candies, nuts, baklavas, biscuits, and other boxed sweets against external damages that may occur during the transportation process.

These products are often exposed to shock, vibration, and other factors that may lead to damage, but with Chocolate Pad®, you can have peace of mind that products are well-protected.

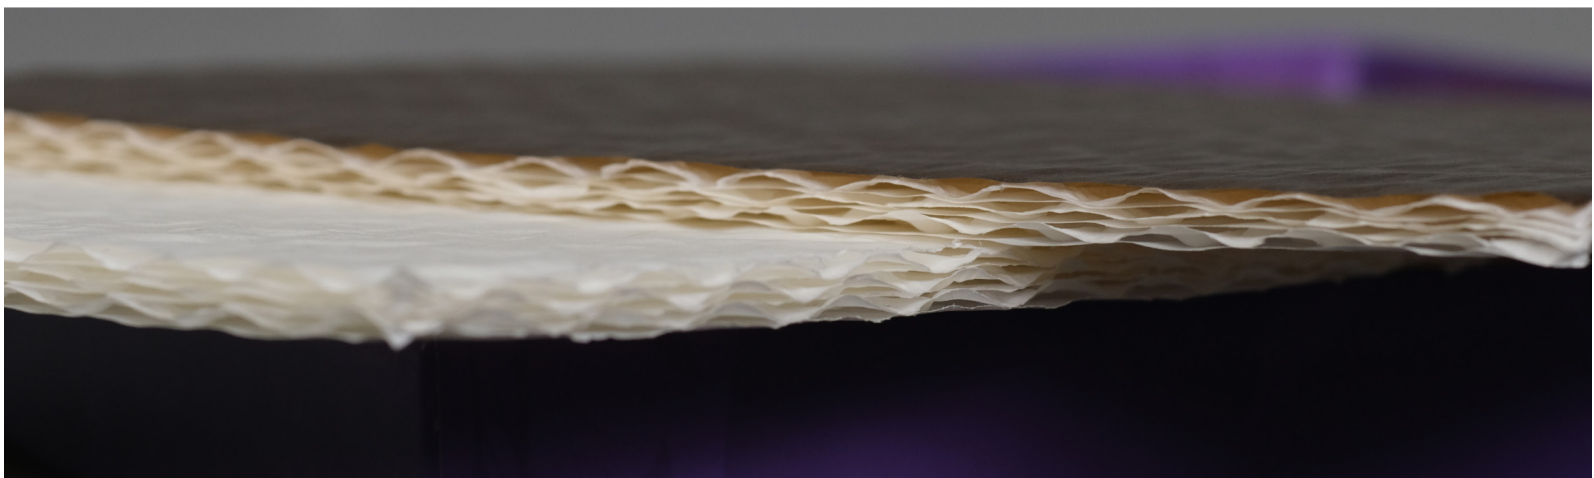

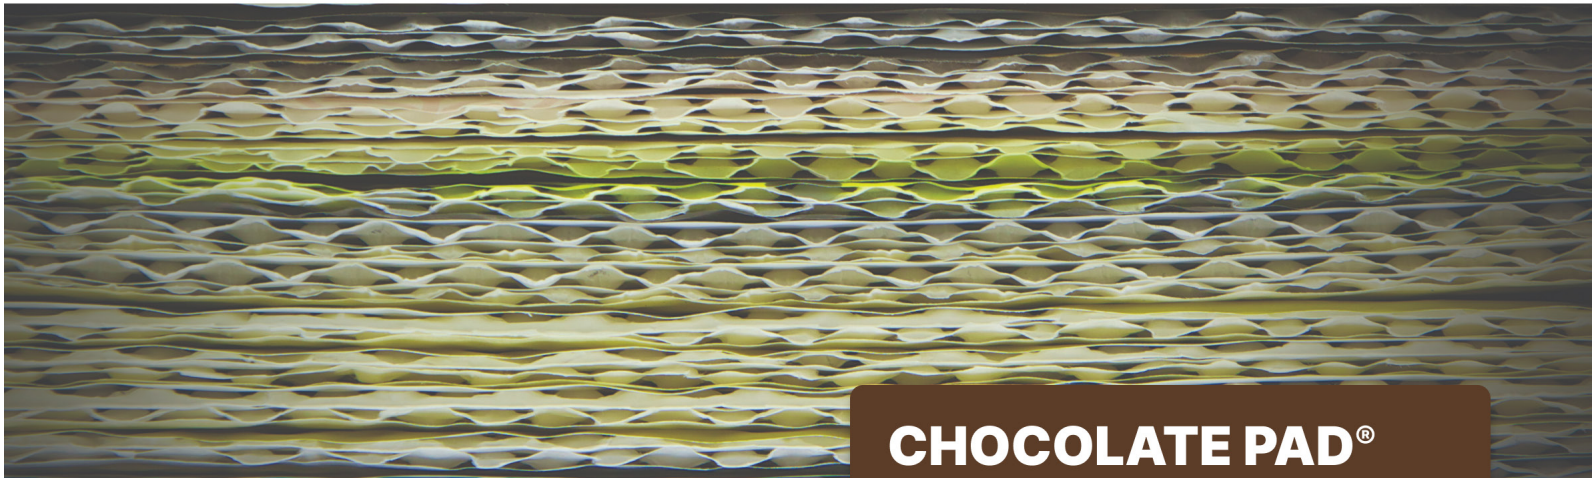

Features:

Various thickness options;
2,3,5 and 7 layers 

Logo and printing
customization 

Custom size and shape 

Stay ahead of competitors with exceptional quality

The option to print brand or logo on the pads adds value to products, giving them an elegant and sophisticated look that sets them apart from competitors. Branded Chocolate Pad® solution can make a lasting impression on customers, elevating brand identity and boosting business image.

Moreover, Chocolate Pad® is compliant with all raw materials used in production, having been certified with ISO 9001 and ISO 2200, ensuring that you receive a high-quality product that meets the highest standards of safety and quality.

Become more memorable its with customizable structure

CHOCOLATE PAD®

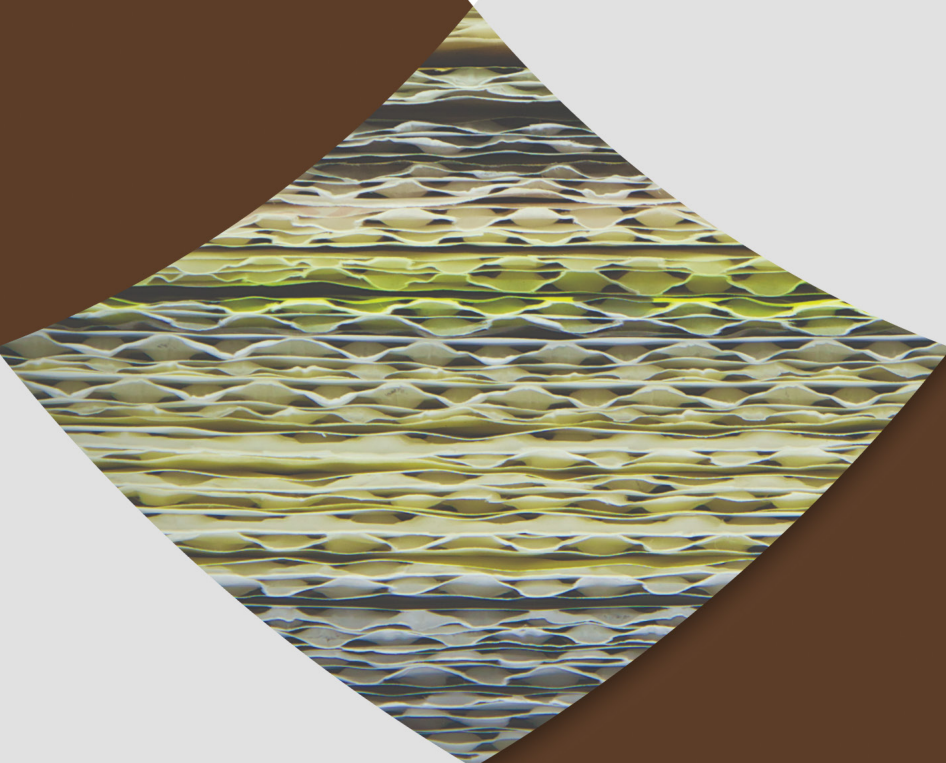

This packaging solution is customizable in terms of layers and thickness, providing durability and flexibility for specific needs. The use of black, white, and brown papers allows for branding opportunities, while film layers enhance protection. Standard plate sizes make integration easy, and custom cut sizes are available for unique needs.
