Recyclable  
Paper Bubble**

“ **PAPERSAFE®**

Where air and paper come together for a versatile and green packaging solution.

## Papersafe® delivers products safely and sustainably.

Papersafe® made from 100% recyclable and recycled paper, Papersafe® is a versatile packaging option.

It can be used for wrapping, cushioning, void filling, blocking and bracing. Its ability to wrap and support products ensures that they arrive at their destinations safely, while filling voids in the box prevents damages from drops and vibrations.

### Features:

100% recyclable and recycled paper 

FSC Certified 

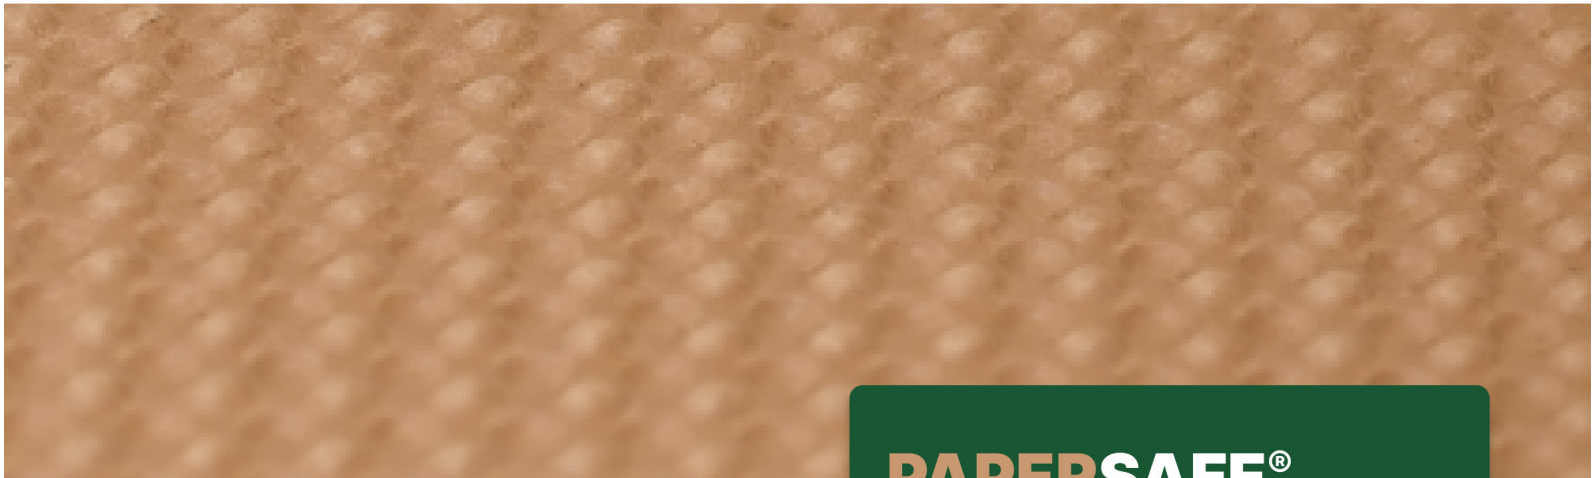

Innovative and elegant 

Versatile in its use 

No equipment needed 

## PAPERSAFE®

Papersafe® creates a memorable unboxing experience that leaves a lasting impression. Elevate the packaging game with an innovative solution, where elegance meets practicality.

## Get the most out of its versatility.

Papersafe® is a game-changing product designed with practicality and ergonomics at its core. Offering a simple yet effective solution for protecting fragile items during transportation, Papersafe® eliminates the need for additional equipment.

One of the standout features of Papersafe® is its innovative and elegant appearance. Unlike traditional packaging materials that are plain and uninspiring, Papersafe® adds a touch of sophistication and style to products.

Furthermore, Papersafe® allows for a unique and exclusive gift package appearance that sets the product apart from the competition.
